🧠 SKILLS

JavaScript | React | Node.js | PostgreSQL

jQuery | HTML/CSS | Material UI | Postman

AWS S3 Storage | Heroku/Deployment | GIT/GitHub

Express.js

🎓 EDUCATION

Prime Digital Academy,
Full Stack Software Engineering Certification ⧉
2022 – 2023 | Minneapolis, MN, United States

- Developed a strong foundation for deployment/hosting applications, resulting in a greater understanding of the connection via environment variables across cloud based platforms such as Heroku.
- Contributed to the success of my cohort by providing resources to assist with their job search post-graduation and provide accountability.
- Utilized version control (GIT) with GitHub to collaborate on projects between multiple users.
- Improved workflow for myself and others by utilizing debugging tools such as Chrome Dev Tools, logs, and Postman to test API endpoints.

Lake Superior College, *Associates*
2014 – 2016 | Duluth, MN, United States

- Training included search and rescue operations, fire suppression, and 'agile-like' work flows.
- Led calm and collected radio and verbal communications with my team, resulting in successful completion in intense, real-life scenarios.
- Completed critical, time sensitive tasks effectively and efficiently under high stress situations.

🌐 LANGUAGES

Spanish | English

👤 PROFILE

A disciplined software developer, I'm constantly driven to improve and become the best version of myself. I thrive on the challenge of solving complex problems and am deeply fulfilled by my career in programming. I enjoy keeping busy through activities like rock climbing, reading, exercising, and having deep, thought-provoking conversations about tardigrades. Surrounded by supportive and inspiring individuals, I am constantly motivated to succeed and grow as a software developer.

💼 PROFESSIONAL EXPERIENCE

Prime Digital Academy, *Full Stack Software Engineer*
2022 – 2023 | Minneapolis, MN, United States

- Developed confidence using React, Javascript, CSS/HTML, PostgreSQL, RESTful Architecture, testing APIs and their HTTP endpoints, and creating full stack web applications applying Agile & Waterfall methodologies.
- Missing Link ⧉ - Developed a critical solution for the lack of data between patients with diagnosed ailments. Researchers are now able to draw conclusions from seemingly unrelated attributes between patients with shared condition(s), diseases, and otherwise.
- Queerspace collective ⧉ - Leading my team, we centralized & streamlined the company's current functionalities. We created a smooth experience for users and administrators, providing CRUD functionality for events and to register new users to the platform, helping LGBTQ+ youth develop the confidence to be themselves.

Mallards, Village Inn, Axel's Bonfire, Tobies Restaurant & Bakery, *Waiter (various locations)*
2017 – 2022
Forest Lake, MN, Wyoming, MN, St. Paul & Blaine, MN, Hinckley, MN, United States

- Mastered time management during high stress/intense operations, including placing multiple, large & complex orders while juggling a myriad of tasks simultaneously, in order to ensure a great experience for our guests.
- Received acclaim from guests and would daily be requested by name. Received gratitude of 20% or more, providing an objective reflection of my service.
- Created a warm and welcoming environment for people of all genders, races, and orientations, and developed excellent time management skills.
- Established myself as reliable and trustworthy with a near perfect attendance rate, at all locations. This resulted in preferential dining sections due to the consistency and quality of service I provided.
